Any dispute, controversy or claim arising out of or related to this Agreement, or the interpretation, execution, application, breach, termination, or validity thereof, including any claim of inducement by fraud or otherwise, if it cannot be settled amicably by the Parties within thirty (30) calendar days of the notification of the dispute by one Party to the other Parties, will be submitted to the exclusive jurisdiction of the courts of the District of Columbia.

13.3. Compliance with Anticorruption Laws and International Economic Sanctions. CLASP and Client commit to respect and ensure that their personnel and subcontractors will comply with any applicable anticorruption laws and international economic sanctions, including but not limited to the U.S. Foreign Corrupt Practices Act of 1977, as amended (the "FCPA"), and with any comparable anti-corruption laws in any jurisdiction where Contractor performs the Services.

13.4. General Compliance with Law. While providing the Services, Client and Contractor Personnel will comply with all other applicable laws, rules, and regulations.

13.5. Safeguarding Requirements. The Client acknowledges that, under this Master Service Agreement, the recipients of VeraSol certification services agree to maintain and abide by strong safeguarding principles including anti-human trafficking, child protection, sexual exploitation, and abuse. Client will ensure compliance with host country and local legislation or international standards, whichever gives greater protection, and with U.S. law where applicable. CLASP reserves the right to ask for the relevant policies and mechanisms to adhere to these.

13.6. Sustainability. CLASP (the “Provider”) desires to further its commitment to sustainability through encouraging Clients to adopt this business philosophy. Supporting high-performing and durable off-grid solar solutions is a first step towards expanding the access to modern energy services in a sustainable way. Increasing the supply of affordable high-quality off-grid solar solutions can help address issues of rising energy costs and reduce environmental footprints. However, when promoting access to off-grid solar products, environmental issues like material waste management should still be considered. Therefore, the Provider will support Clients with current and relevant information on sustainable practices, and Clients will proactively assess their operations to be sure that production, manufacturing, distribution, use, and end of life of off-grid solar products are conducted in a sustainable and responsible manner.

13.7. Independent Contractors. The parties are independent contractors, and no partnership, joint venture or employment relationship is intended by this Agreement. Neither party has the authority to enter into agreements or make any representations or warranties of any kind on behalf of the other party.

13.8. Modification of Agreement. This Agreement may not be modified or amended, or any of its provisions waived. If a modification is needed, it will only be binding if placed in writing and signed by each Party or an authorized representative of each Party.

13.9. Severability. If any provision of this Agreement or the application thereof to any person or entity or circumstance shall be invalid, illegal, or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by the law.

13.10. Force Majeure. Neither Party shall be liable for any failure or delay in the performance of its obligations due to fire, flood, earthquake, elements of nature, acts of God, acts of war, terrorism, riots, civil disorder, rebellions, or other similar cause beyond the reasonable control of the Party affected, provided that such default or delay could not have been prevented by reasonable precautions and cannot reasonably be circumvented, and, provided further, that the Party hindered or delayed immediately notifies the other Party describing the circumstances causing the delay. This provision shall not act to delay or defer the payment of any sums which may be due and owing.

13.11. Headings. The headings in this Agreement are inserted for convenience only and are in no way intended to describe, interpret, define, or limit the scope, extent or intent of this Agreement or any provision hereof.

13.12. Survival. Articles 5, 6, 7, 8, 9, 10, 11, 12, and 13 shall survive any expiration or termination of this Agreement.

13.13. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original but all of which shall constitute one and the same instrument.

13.14. Entire Agreement. This Agreement constitutes the entire agreement between the parties and supersedes all prior agreements, understandings, and arrangements, oral or written, between them with respect to the subject matter hereof.
